2.0 - Project Scenes

The project is divided into three simple scenes:

1. Main Scene
2. Example1
3. Example2

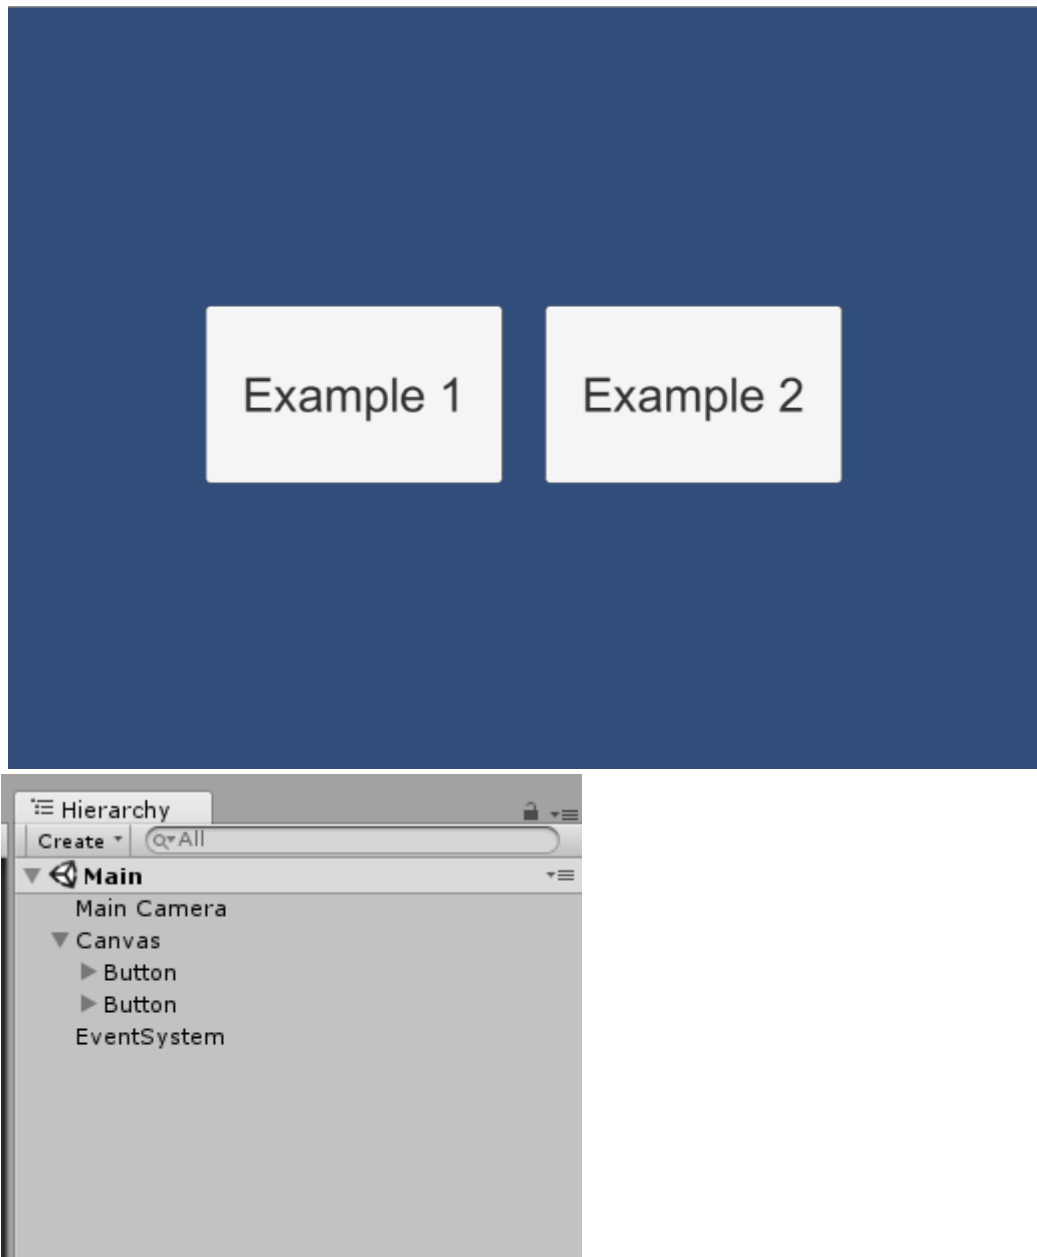

You will find the scenes under **Scenes** folder as the following

Make sure to add the scenes in the build settings, before you run the project.

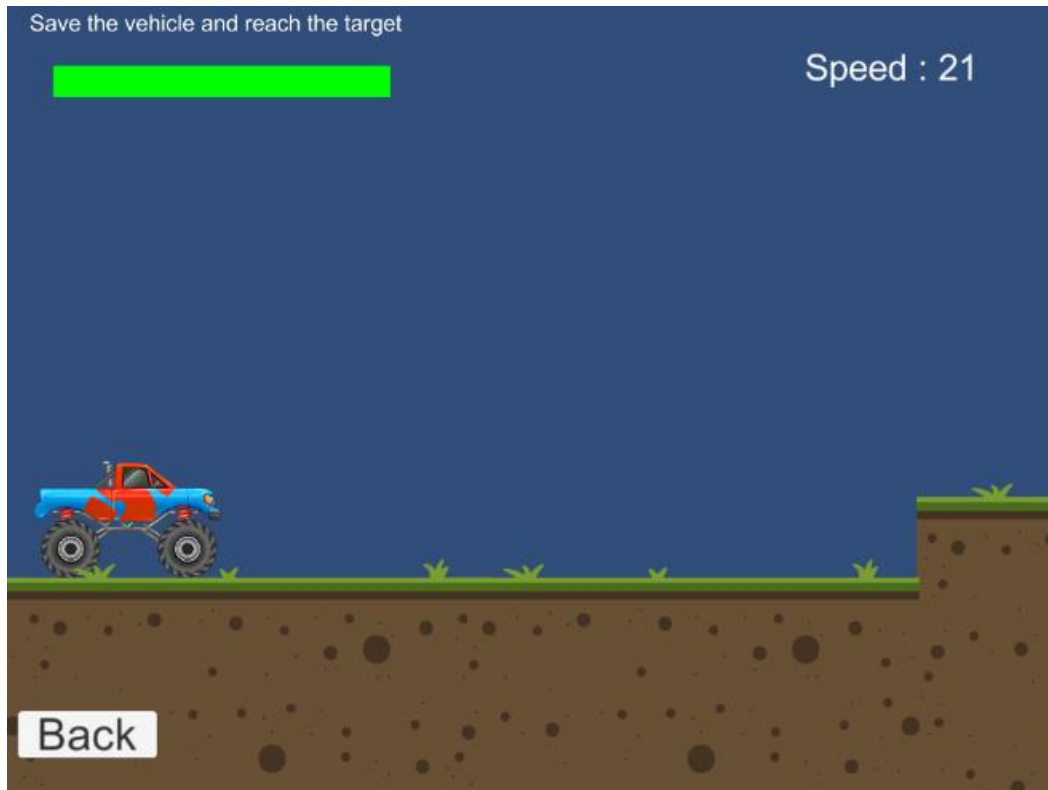

3.0 - Main Scene Brief

Main scene is the first scene in the project which mainly contains the two examples buttons to load the scene of each one.

4.0 -Example1/2 Scene Brief

In **Example1** scene, you need to reach the target by a vehicle, Draw a line to create the path for it.

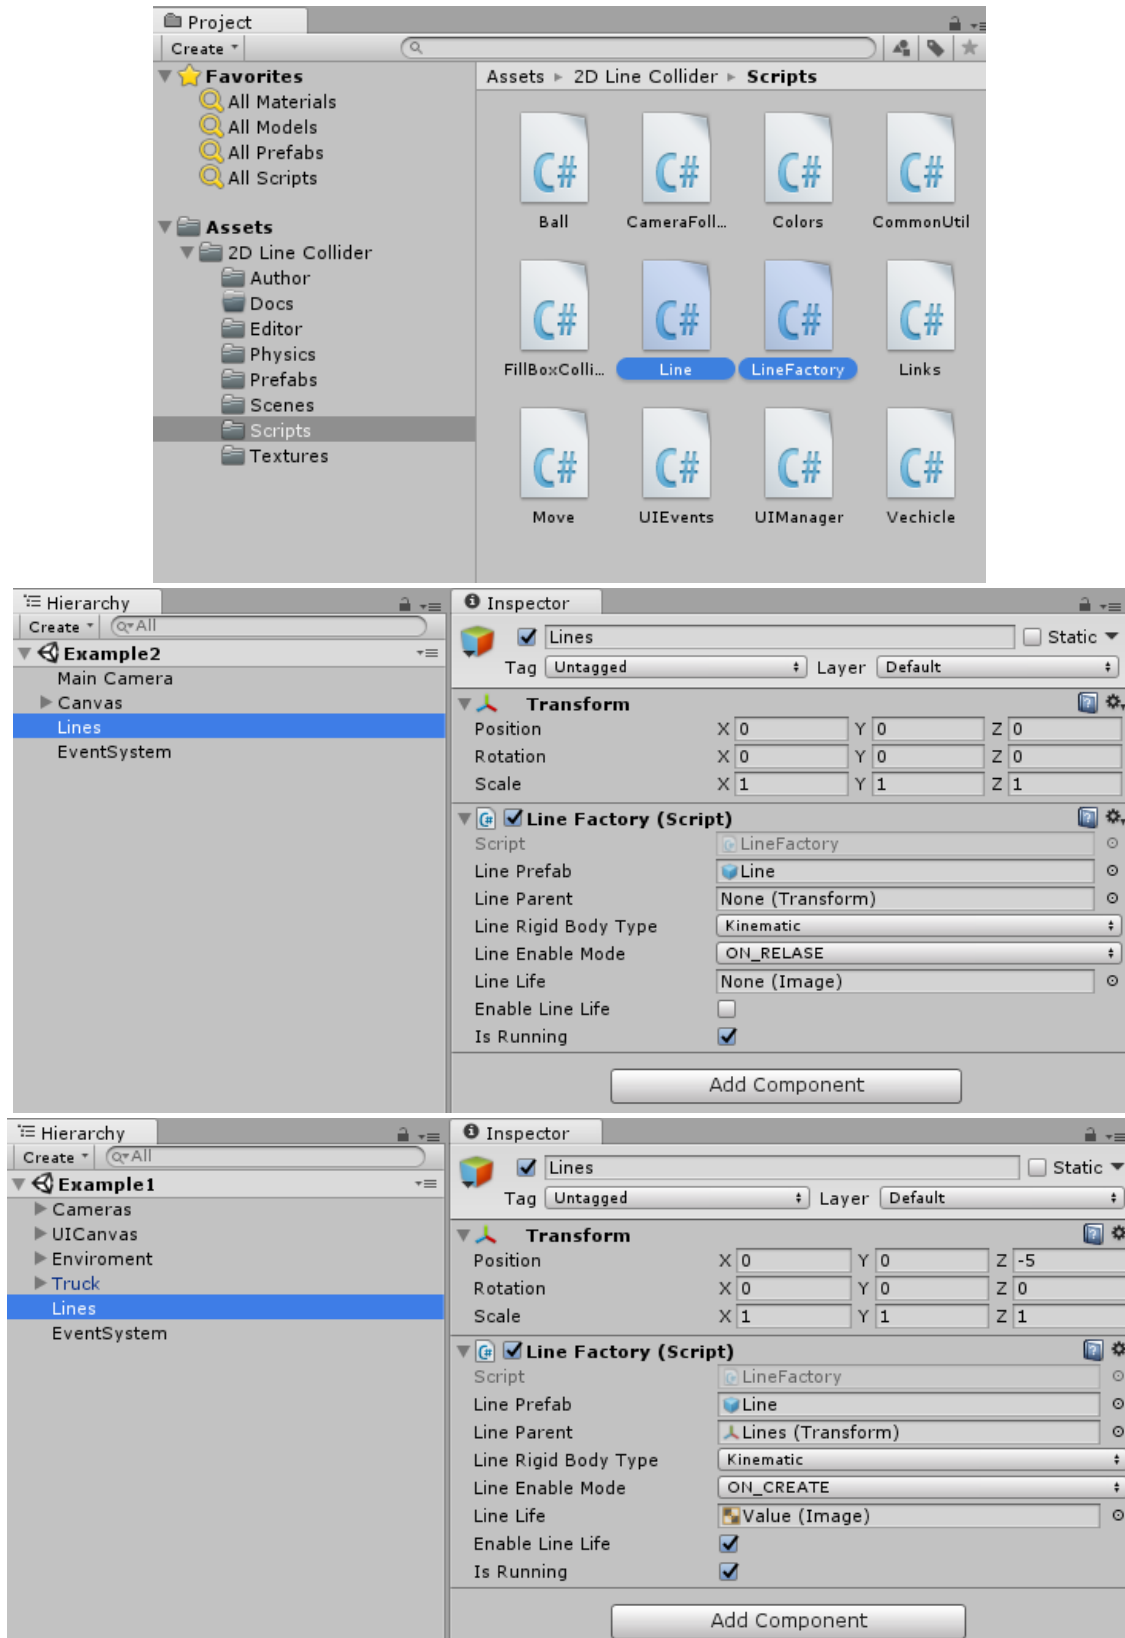

In **Example2** scene, you need to draw a line to create the path to reach the target then click on Simulate button to test.

5.0 - Line Scripts

In this basic project, you need to focus on the **Line**, **Line Factory** scripts they are responsible to create and draw the Lines in the scenes.
